PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience building enterprise SaaS platforms using .NET Core and Angular. I own features end to end, from database schema through REST APIs to the UI, with a focus on multi-tenant systems and payment gateway integrations. I structure code around Domain-Driven Design (DDD), Clean Architecture, and SOLID principles. Graduate of the Ministry of Communications (ITI) Full-Stack .NET scholarship.

WORK EXPERIENCE

Oasis Computer Systems - Full Stack Developer

Mar 2024 - Present | Cairo, Egypt

- Built a multi-tenant broker leasing platform used by major insurance companies in Saudi Arabia, covering quotations, policy drafting, and issuance through integrations with Al-Maamoun and ALJ Insurance.
- Developed Angular customer portals for policy management and post-issuance procedures, working end to end across API and UI.
- Integrated secure payment processing with the HyperPay and Tap gateways.
- Designed and maintained modules using Domain-Driven Design (DDD) and the ABP Framework, leaning on its multi-tenancy and permission management.
- Collaborated directly with clients to gather requirements and deliver tailored, maintainable solutions.

PROJECTS

FAO E-Commerce - Full Stack Web Application

- Built a full-featured e-commerce app with user registration, login, and product browsing.
- ASP.NET Core Web API on the backend and Angular on the frontend for a responsive, scalable solution.
- Tech: Angular, TypeScript, HTML5, CSS3, Bootstrap, C#, ASP.NET Core Web API, SQL Server, Entity Framework Core, LINQ.
- GitHub: [FAOECommerce](#)

Ticket Management System

- Collaborative ticket system that lets users create, track, and share tickets with built-in file sharing.
- Implemented authentication and authorization using ASP.NET Core Identity and JWT.
- Added email notifications to improve communication between users and administrators.
- Tech: C#, ASP.NET Core Web API, Blazor Server, SQL Server, Entity Framework Core, LINQ, AutoMapper, MediatR, FluentValidation.
- GitHub: [TicketManagement-Task](#)

TECHNICAL SKILLS

Languages: C#, JavaScript, TypeScript, SQL

Backend: ASP.NET Core (Web API & MVC), ABP Framework, Entity Framework Core, LINQ

Frontend: Angular, HTML5, CSS3, Sass, Bootstrap, jQuery, Responsive Web Design

Architecture & Practices: Domain-Driven Design (DDD), Clean Architecture, SOLID Principles, Repository Pattern, Unit of Work

Databases: Microsoft SQL Server

Tools & DevOps: Git, GitHub, Azure DevOps

EDUCATION & TRAINING

ITI - Information Technology Institute (Ministry of Communications)

.NET Full-Stack Development Scholarship | Jul 2023 - Nov 2023

- Completed the MCIT Full-Stack .NET scholarship through ITI.
- Built two hands-on projects with ASP.NET Core and Angular, covering both backend APIs and frontend development.
- Gained practical experience with ASP.NET Core, Angular, SQL Server, and Entity Framework Core.

Bachelor's Degree in Administrative Information Systems

Misr Higher Institute of Engineering and Technology | 2018 - 2021
